NEW-YORK TAKES THE GAME

ST. LOUIS MAY WIN TO-DAY, HOWEVER. THE HOME NINE GETS ONLY TWO RUNS IN THE

FIRST OF THE CHAMPIONSHIP CONTESTS. The New-York nine defeated the St. Louis team at the Polo Grounds yesterday, and takes the lead in what promises to be a lively series of battles for the champtenship race. About 4,500 people were present, and not a game played at the popular Harlem grounds this year attracted closer attention from the spectators. It was a good game of baseball, although too much of the work devolved upon the pitchers. Only seven basehits were made during the game, and most of these were made in the first three innings. Keefe pitched with telling effect, but King did equally as good work. The players of both teams seemed slightly nervous. Umpires Kelly and Gaffney gave entire satisfaction. Many well-known baseball men were present, including President Wheeler Wikoff, Howe, Von der Horst, Von der Ahe, Barnie, Aaron Sterns, F. K. Stearns, John Botto, W. W. Watrous, Billings, C. T. Dillingham, Al Reach, "Mike" Kelly, Umpire Daniels, Lipman Pike, "Gus" Abell, and Thomas Loftus. Each team had its diminutive mas The local nine led in the little baserunning that was done.

Neither side scored a run in the first inning, but in the second the local players got a run and took Connor hit safely to left field, and Ward made a bunt hit, and although the ball was quickly handled by Latham, Ward got safely to first. King seemed slightly flurried, and a wild pitch put Connor on third and Ward on second. Slattery's fly was captured by Lyons, and although Conner scored, Ward was thrown out at first. The local club held the lead for an instant only, as the Western champions got a run and tied the score. After King had been struck out, Latham was sent to first on called balls. Then the crowd looked to Ewing, expecting to see the great base-runner thrown out at second. But the great base-runner thrown out at second. But he was not put out. Ewing threw the ball out of Richardson's reach, and Latham was safe. Slattery also fumbled the ball, and Latham got to third on the error. O'Neil hit safely to centre field, and Latham scored. In their half of the inning the New-Yorkers got a run and were again in front. After two men were out Tiernan was sent to first on called balls. He got to second on a wild throw by Boyle, and to third and home on an error by Lyons. The crowd was happy, and showed it. No more runs were made, the local club eventually winning, as follows:

The Brootlyn club defeated the Baltimore team at Washington Park, Brooklyn, and ended the American Association championship season in this neighborhood. It was a well-played and exciting match, the home team turning apparent defeat into a victory by a streak of heavy batting in the last finding. Greenwood, Shindle, Pinkney and Burns played in fine form, The score was:

Chicago, Oct. 16.-The story that "Mike" and John Kelly are to start a hotel in New-York this winter is practically denied by a telegram which President Spaiding colved from the "Only Mike" yesterday, stating that he will be in Chicago Saturday morning to go on the Australian tour. Tiernan, however, has decided not to go, and his place will be taken by H. C. Long, who played with the Maroons early in the season and made a brilliant record as a helder and batter. President Spaiding also announces that Long will play with the Chicago nine during the scason of 1880.

A NEW CHAPEL FOR BELLEVUE HOSPITAL. of Bellevue Hospital was laid yesterday afternoon by Mrs. A. T. Townsend, who recently gave \$20,000 for the crection of the building. It was the wish of Mrs. Townsend that there should be no public eremony connected with the laying of the stone, and only a few of her personal friends were invited to be present. The Rev. Dr. Henry Y. Satterice, of Calvary Protestant Episcopal Church, offered a short prayer, and Archdeacon Alexander Mackay Smith be ivered an address, in which he referred to the good works performed by Mrs. Townsend, who, he said, preferred that the extent of her charitable its should not be heralded before the world. Mrs. Townsend then formally laid the stone, assisted by the architect of the building. The building will be three stories high, and will contain a large room for services, a reading-room, and rooms for con-calescent patients. The chapel will be used by different denominations, each having a day set apart for that purpose. Mrs. Townsend is also the giver of the Townsend cottage, which is attached to the

chapel. RESOLUTIONS THAT WENT THROUGH QUICKLY. Mayor Chapin said yesterday that he would carethe Brooklyn Aldermen, in granting a franchise to the Edison Electric Illuminating Company, which were rushed through on Monday night with a promptticians at the City Hell. More important communicater have been suffered to lie over for a week, at least, and such, it was supposed, would be the fate of the Mayor's paper this time when it was laid on

the situation, as the resolution was offered in less time than it could have been drafted, and must have been in readiness. The impression grew yesterday that the Mayor was only trying to aid the Governor n securing re-election, and this is strengthened by the announcement that the Governor is to be the guest of the Mayor at his home after he speaks in the Academy of Music on Friday night.

STRAUSS, THE SUICIDE, NOT A RABBIL The funeral of the Rev. M. Strauss, who shot him-self in the sheepfold at Central Park on Monday evening, will take place this morning, at the Roose-velt Hospital, at half-past 9. The burial expenses fund at the Temple Emanu-El. Mr. Strauss came from Germany a few years ago, and at one time had charge of a small congregation at Rockville, Texas. Dr. Gilvermann, of the symple Emanu El, said yester-day that Strauss's lim ted knowledge of the English language and his connection with the reform sect of the Jewish Church militated against his chances of securing employment. He was not a rabbi, but merely a chazan, or reader to congregations.

WAR ON THE "LITTLE EXCHANGE." The Committee of Arrangements of the Stock Ex-change met yesterday and in response to the urgent request of Secretary Ely something less than a hundred Stock Exchange firms were called to the bar. The charge was that the latest directory of the "Little Exchange" included the names of well-known Stock Exchange houses. The constitutional provision of the Stock Exchange forbids any direct connection with any other exchange in this city in which there are dealings in stocks and bonds. It has not been supposed to include clerks and it is notorious that hers of the Stock Exchange who had been members of the other board evaded the law by transferring thefr memberships to clerks. The meeting yesterday was intended to sever this slight con-Nothing was done beyond the appointment of a committee to investigate the relations of the two exchanges. WORK OF THE BOARD OF ESTIMATE.

The Board of Estimate yesterday, after a song discussion, appropriated \$144,000 in bulk for the expenses of the Excise Department for the year ending May 1, 1887. This is about \$6,000 in excess of last year, and \$24,500 less than the Excise Commissi asked for. The question turned on the employment of detectives. Tax Commissioner Coleman and President Forster opposed the appropriation of money to pay them. The sum of \$48,410.79 of excise money apportioned among the charitable institutions having charge of juvenile delinquents.

The issue of \$250,000 of additional water stock was authorized. A claim of Sheriff Grant's for \$48.93, fees, was presented, and Mayor Hewlit examined the law as to the Sheriff's allowance. The withheld estimates on their sections, Nos. 6, 7, 8 and 9, amount to \$240,953 68. The amount reserved for bad work is \$75,684, leaving \$165,269 66, which the Controller will pay at once to O'Brien & Clark. This is in accordance with Mr. Beekman's opinion, and to prevent embarrassment to the contractors in going on with the work. The overpayments will be adjusted in the final settlement. The claims of Brown, Howard & Co. will next receive attention.

PLANNING A GREAT SUSPENSION BRIDGE The bill which was introduced into the House of Repre-ntatives by Mr. Farquhar on Monday night to empowe Rufus Hatch, Egbert L. Viele, Henry C. Davis, Charles D. Garden to build a bridge across the Hudson River at such point as may be most convenient for the transportation of point as may be most convenient for the transportation of freight and passengers between the New-Jersey and New-York shores is expected by the promoters of the scheme to be carried through with little opposition. Rufus Hatch said yesterday: "The construction of a suspension bridge over the Hudson River is an absolute necessity, owing to the vast amount of traffic brought to this city by the rall-roads entering Jersey City. Hoboken and Wechawken. The bridge will be constructed in one span and will be a common ferry bridge open to all railroad companies and the public generally. It will be not less than 142 fee above high water mark and will not interfere with the navi gation of the river. We expect to get our charter within six months from now if a Republican Administration is elected, as that party is more impressed with the urgen requirements of New-York and the development of plans for meeting the demands of the city. The bridge company, when formed, will make contracts with all the railroad companies centring here for the transportation of freight and passengers. The site of the bridge will be at Englewood if no suitable foundation can be found lower lown the North River, but it is expected by the eng that the bridge can be run into the heart of the city. Th bridge will be the most massive and gigantic engineering work ever undertaken, and as all the plans are subject to the approval of the Secretary of War, the public will resassured of its stability and safety. The Hudson being a navigable river, we shall obtain our charter from th United States Government. No plans or details of the scheme have yet been prepared."

DUFFY'S

A SCIENTIFIC REMEDY,

A BEVERAGE.

No disease germ can POSSIBLY remain lodged in the body if this Great Remedy is carefully and constantly used. Prof. Wm. T. Cutter, State Chemist of Connecticut, says:

"I have analyzed a great many samples of whiskey, Wines Ales, &c., and was surprised, to find upon analysis that Dufty's Malt Whiskey was absolutely pure, as I never found this to be the care in any other Whiskey I had examined. These facts must commend it to general use and public favor."
